MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT : SAC Proposals for European Peripheral Photo Flights - U-2

REFERENCE : Memo for DD/P from Acting Chief, DPD-DD/P, dated 24 April 1959, same subject (CHAL-0646) (Attached)

25X1C
Herewith is a memorandum from Colonel Burke that is self-explanatory. As you will note, I have concurred with his recommendation that we should endeavor to forestall the SAC missions herein referred to (though I believe it would be unwise for us to approach [] for this purpose). I believe the most efficacious action would be a call by you to General White. If however you would prefer to have this handled in some other way, would you so advise me.
